Cesar Rodriguez

FullStack Developer

cesarcamilo001@gmail.com | +57 311 2426884 | Colombia | LinkedIn | GitHub | Portafolio Web

FullStack Software Engineer with **+2 years** of experience. Leading development of an internationally used event management system, serving **100,000+ users**. End-to-end experience with **Angular**, **NestJS/Spring Boot**, and **PostgreSQL**, including security, biometrics (facial recognition), and real-time analytics. Passionate about continuous improvement and adopting clean technologies and best practices, along with process optimization, UX, and usability. Looking for a **FullStack / Backend Developer** role where I can keep scaling products with real-world impact.

Professional Experience

Technology Coordinator, Full Stack Developer,
Kapulus International
2025 – 2026 | Colombia

- Led development of the company's event registration system, scaling it from 4,000 to over 100,000 users with no performance degradation.
- Drove the platform's technical modernization (stack migrations, security and biometrics hardening) and its evolution toward real-time analytics. *(full technical detail in the Projects section)*

Freelance
2024 – Present

- Design, implementation, and deployment of web applications, SPAs, and custom microservices for independent clients.

Cabin Counselor, *YMCA*
2022 – 2024

- Fluent English communication, leadership, adaptability, and ability to work under pressure in an international environment.

Skills

Languages — Java, TypeScript, SQL, HTML, CSS, Python

Frameworks — Angular, NestJS, Spring Boot, FastAPI, React.

Databases — PostgreSQL, MySQL, MongoDB

DevOps & Tools — Docker, GitHub, Figma, Claude Code

Cloud/Infra — Dokploy, Vercel

Recent Projects

Kapulus Event Manager, *Event management software*
Web app: Angular | NestJS | PostgreSQL | Docker
Real-time statistics: Angular | NestJS | MongoDB
Online registration: Angular | MongoDB
Biometrics module: Python | FastAPI | NVIDIA CUDA | FAISS
Notifications: Twilio | NestJS
Badge printing: DYMO

- **Optimization & Scalability:** Maintained, improved, and optimized system performance, scaling it from **4,000** to over **100,000 users** with no degradation, including updating and migrating deprecated technologies to current stacks.
- **Stack migration:** Migrated the frontend from **Angular 1** to **Angular 19** and the backend from **Express** to **NestJS**, reducing technical debt and improving maintainability, development speed, and scalability.
- **Security & biometrics:** Implemented system security improvements, including a facial recognition module for the registration process, strengthening event access security.
- **Real-time analytics & reporting:** Built a real-time statistics dashboard that enables clients to make operational decisions during the event.
- **Online registration:** Built a cloud microservice that consolidates information from different platforms in real time within the event registration system.
- **Service integration:** Improved communication and notifications by integrating Twilio (messaging system) to notify attendees during events.

Languages

Spanish — Native.

English — B2 (conversational, gained while working in the U.S., 2022–2024).

Education

Bachelor's in Computer/Informatics Engineering,
Institución Universitaria Colegio Mayor del Cauca
08/2018 – 01/2025 | Colombia

Additional Education

FullStack Developer, Backend Development,
DevTalles, Udemy, Academia X, Platzi
2023 – Present

NestJS, NodeJS, FastAPI, TypeScript, Angular, Claude Code, Java, Spring Boot, JavaScript, HTML, CSS, PostgreSQL, Tailwind, Python
